RE: CUNY Transportation Survey 2009

In order to develop a better picture of current commuting behavior, the University has asked all its colleges to take part in a short online survey which asks you to tell us about how, when and how often you travel to the campus.

The long-term objective of this survey is to improve the commutes of CUNY students, staff, and faculty to and from each CUNY campus.

Information from this survey will also benefit the CUNY community by providing data for transportation improvement strategies. It is hoped that this data can be used to develop more sustainable transportation options for the CUNY campuses and thus reduce CUNY's carbon footprint.

Please take 5 minutes to complete the survey by clicking on the link below.

http://www.surveymonkey.com/s.aspx?sm=oax0fEhcKlxkoJVV_2fL_2bhvg_3d_3d

Please submit your responses by Friday, October 30th.

The survey is entirely voluntary and confidential and has been designed so that your individual answers remain anonymous. Furthermore, it has been assessed and approved by CUNY's Institutional Review Board, which scrutinizes all such surveys in accordance with strict guidelines on questioning private individuals.

Thank you in advance for considering taking this survey and for the helpful contribution your answers will make toward CUNY's ongoing efforts to develop sustainable transportation and commuting options.
